Career Objective

Computer Science undergraduate specializing in Artificial Intelligence, NLP, and full-stack development. Seeking to apply software architecture, machine learning, and low-latency API design skills to solve practical engineering challenges and drive product scalability within a high-impact technical team.

Education

BRAC University — Dhaka, Bangladesh
Bachelor of Science in Computer Science – ***CGPA: 3.74 / 4.00*** — *May 2023 – Expected May 2027*
Selected Coursework (4.00/4.00): Data Structures, Algorithms, OOP, Automata & Computability, Operating Systems

Technical Skills

Languages: Python, JavaScript, TypeScript, C, Java, Kotlin, SQL, HTML5/CSS3
Frameworks & Libraries: FastAPI, Next.js, React, Node.js, Flask, Prisma, PyTorch, TensorFlow, Scikit-Learn
Mobile & Tools: Flutter, Android SDK, Git, GitHub, PostgreSQL, MySQL, SQLite, Linux, Docker, REST APIs

Projects

AstroLife Knowledge Engine | *Python, PyTorch, NLP, LLMs, Streamlit* | GitHub — Oct 2025
– Engineered an automated NLP ingestion pipeline to extract, index, and query space biology publication datasets (NASA Space Apps Challenge).

Khela Ghor – Game Testing Platform | *Next.js, React, Prisma, TypeScript, PostgreSQL* | GitHub — Dec 2025
– Developed a full-stack platform featuring developer build hosting, discussion channels, and a real-time web chat system.

NeonNekko – Media Tracker | *Flutter, Dart, SQLite, Android SDK* | GitHub — Dec 2025
– Built an offline-first mobile application to track media releases, manage user lists, and handle local data persistence.

Haven – Campus Utility Engine | *FastAPI, Python, SQL* | GitHub — May 2026 – Present
– Architected backend routing algorithms to monitor and optimize available university classroom allocations in real time.

2D Interactive Simulation Engine | *Python, OpenGL, Computer Graphics* | GitHub — Sep 2025
– Implemented real-time graphics rendering algorithms, asset coordinate transformations, and customized game loop states.

Experience & Academic Mentorship

BRAC University — Dhaka, Bangladesh
Peer Mentor – Department of Computer Science — *Jan 2025 – Present*
– Facilitate lab debugging and problem-solving sessions for 40+ students in foundational data structures and algorithm courses.

Honors & Achievements

- **Dean's List (5 Semesters):** Recognized for academic excellence with semester GPA exceeding 3.70.
- **Merit-Based Scholarship:** Maintained academic standing at BRAC University across consecutive semesters.
- **Hackathons & Contests:** Participant in NASA Space Apps Challenge (2025); Finalist in BUCC Bit Battles (2025).
